

canning jar hanging vases

do it yourself

Step One: Purchase our Canning Jars with the screw-on lid, our jute rope twine and a good pair of scissors.

Step Two: Cut rope to the length you want your handles; let it sit inside the jar and tape the sides.

Step Three: Loop twine in six circles around your handle.

Step Four: Tie off in the back and tuck the ends into the looped twine. Remove tape that held handles.

Step Five: Fill with flowers of your choice and hang on a chair or a garden hook.
