

party decorations
large paper flowers

do it yourself

Step One: Layer 10-12 sheets of tissue paper. You can use one color or multiple colors. Our design shows two shades of purple.

Step Two: Accordion fold the sheets of paper in 1-1/2" to 2" sections as shown.

Step Three: Tie a knot tightly around the middle of the accordion-folded paper.

Step Four: Trim the edges (rounded as shown, or to a point).

Step Five: Separate sheets by pulling paper towards the inside knot.

Step Six: Fluff out and round to shape. You can trim the excess rope or add to it if you want to hang your paper flowers.
