

party decorations
small paper flowers

.....
do it yourself

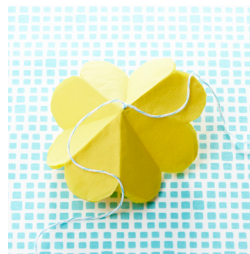

Step One: Cut 8 sheets of tissue paper in a 4 inch circle. Fold in half and then accordion fold the ends as shown.

Step Two: Hold the ends of the paper and trim the edges (rounded or to a point.) The flowers on the table have rounded edges.

Step Three: Thread a needle with bakers twine or heavy thread, tie a double knot and thread through the center.

Step Four: Leave several inches of thread, cut and tie in a knot on the back side.

Step Five: Separate sheets by pulling paper in towards the inside knot. Fluff out and round to shape.
