TEAK BOOKCASE ASSEMBLY

To do efficient assembling:
Check the contents of the plastic bag with hardware and sort out properly.
Have the necessary tools for assembly ready.
Unpack and sort out the various components of the book case.
Arrange for sufficient free space to do the assembling.

Arrange for a Second Person to assist:

Tools Needed:

The plastic bag contents:

- Each panel has a label.
- When installing panels, label should face the back of the unit.

**Various Components:**

A - Top & Bottom Shelf

B - Side Panels

C - Middle Shelf

D - Back Panels

A - Top & Bottom Shelf X 2  
B - Side Panels X 2  
C - Middle Shelf X 4  
D - Back Panels X 5
**Step No. 1**

- Screw in the bolts. Turn until tight. Do not overtighten.
- Add locking device in slot with arrow pointing towards hole on side.
- Make sure arrows are pointing at the screws before attaching.
- Lock gently. One quarter turn only to lock.

**Step No. 2**

- Add locking device in slot with arrow pointing towards hole on side.
- Lock gently. One quarter turn only to lock.
Step No. 3

Make sure arrows are pointing at the screws before attaching.

Lock gently. One quarter turn only to lock.

Step No. 4

Install back panels in order starting with D1, D2, D3, D4, D5.

Put pressure on the back panel to flatten it.
Step No. 5

Make sure arrows are pointing at the screws before attaching.

Step No. 6

Put in short screws in between panels starting at bottom (4).

IT IS IMPORTANT TO PUT THE SCREWS IN BETWEEN PANELS (1,2,3,4) SO THE BACK PANEL WILL BE FLAT.
Safety bracket Option:

To keep the Bookcase in Good Condition:

Don’t use force during assembly.
Tighten the screws after one month.
Keep the assembly tools in a safe place.
Keep the assembly instructions in a safe place.
Use mild furniture polish to clean the bookcase.
