

A

Tools needed: drill, pencil, #2 Phillips screwdriver,

TIP

Make sure that the edge of the drawer is 2" or 50mm from the front edge of the cabinet.

A Installing the Base

- Position Drawer and Base in your cabinet in the desired location, allowing clearance for door to close.
- Remove the Glider from the Base and place on a flat surface.
- Mark the location of the holes in the Base inside the cabinet.
- Drill a pilot hole at each marked location.
- Use a screwdriver to secure the Base inside your cabinet using the included screws.

B Add Drawer to Base

- Install one Clip at each corner of the Glider.
- Align the Drawer over the clips and use the included screws to attach the Drawer to the Glider.
- Insert the Drawer and Glider into the Base mounted inside your cabinet.
