Flip Rack Setup

1. Ensure that the rack is in an upright position with the locking latch securely engaged.

2. Unfasten the lock and grip the sides of the rack and pull outwards.

3. Once unfolded, apply the latches on the front sides.

4. Flip one side of the rack at a 180 degree angle upwards to stack the shelves. There should now be 6 Tiers in total.

5. Tightly fasten the locking latch for security.

6. Open the latch and unstack the shelves.

7. To fold: unlock the latches.

8. To fold: lift from the middle, and push from the sides.

WEIGHT CAPACITY
33 lbs / 15 kg Per Shelf
